

Trimmers

For professional use in the office or at home, for arts and crafts or at school, trimmers are extremely easy and safe to use, and assure that paper, photos, cardboard, sheet materials and more are precisely cut to the desired size. The transparent paper clamp holds the material to be cut securely in place, thus avoiding misalignment due to slipping. This is the only way to guarantee an accurate cut for larger stacks of paper.

Premier 100
Ruler and cutter in one:
for hobby and office
with formats up to A4

Premier 110
Premier 120
Perfection: the ground rotary
blade cuts up to 10 sheets

Premier 520
In the office or at home: rugged design
assures precision results for up to 15 sheets

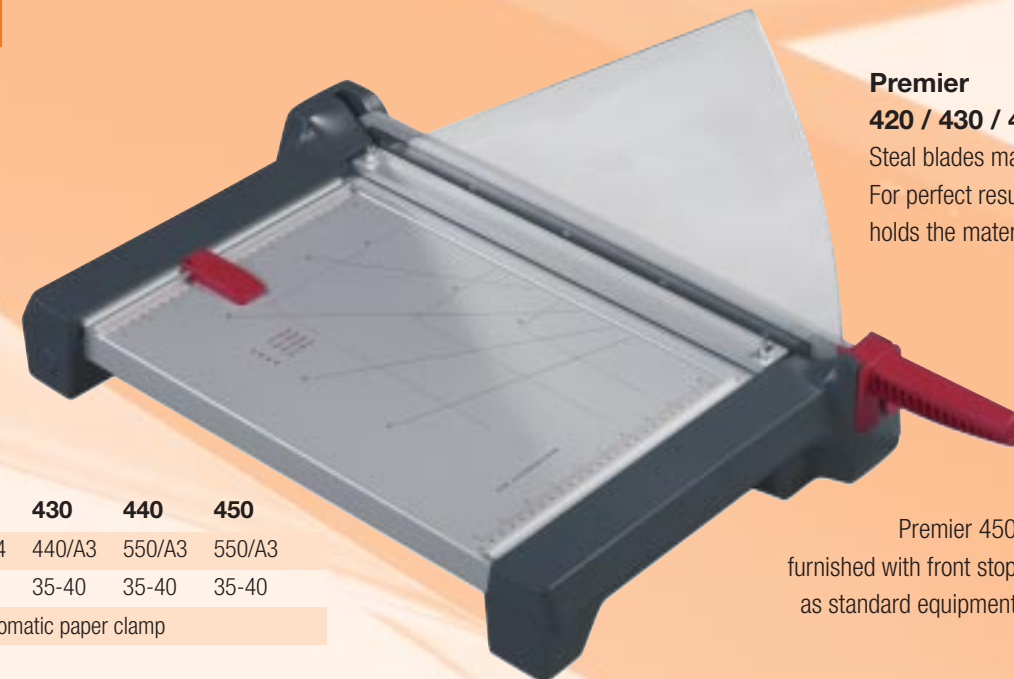

Variant for England:
with safety guard in
accordance with British
standard 5498

Guillotines

Premier guillotines are suitable for use with a wide variety of materials and formats. Even the smallest guillotines are more accurate than the best pair of scissors. As opposed to conventional systems, series 400 guillotines are furnished with an offset blade fulcrum.

In combination with the ergonomically designed handle, this assures best possible cutting results with minimal effort. As a pleasant side effect, the blade opening angle is smaller than with conventional cutters, the hand guard is not as high and the unit takes up less space. The paper clamp included with the Premier 400 follows the blade – it rises and falls automatically. In this way, stacks of up to 40 sheets are held securely in place in an effortless fashion.

Premier 420 / 430 / 440 / 450
Steel blades made in Solingen/Germany.
For perfect results: the automatic paper clamp
holds the material to be cut securely in place

Premier 450
furnished with front stop
as standard equipment
